This Register has been created to include Millers who are linked to John Frederick Miller and/or his brother Harman, whose proper grouping has yet to be determined. DNA testing may be the reason for a Miller descendant being listed in this Register, instead of the Main Miller Family Register. In these instances, it usually a matter of having a missing link in the "paper trail" research, while at the same time, DNA testing has confirmed the individual belongs to these particular Millers. For example, John Miller's research has led him back to the Millers of Halifax County, Virginia, with evidence that he is related to either John Frederick Miller or his brother, Harman. John Miller's problem is, that he has a missing link in his line which would cement the connection together. He completed DNA testing and confirmed he is in fact related to these Miller brothers, but has not thus far, been able to determine, by standard research, which one. Therefore, until such a determination can be made as to which side the individual belongs, they will reside in this Register. When such a time comes, they will be transferred to the correct Register. Those using this Register should be cautious in assuming that the listing of a person herein, automatically conveys relationship to the bulk of Millers found in this research; or that all data entered is correct. There is a considerable amount of erroneous information floating around on the Internet, concerning the descendants of the Halifax County, Virginia Millers. While every effort is being made to ensure that this Register is as accurate as possible, some of that data may creep into the listing. For security purposes, entries in this Registry who are still living will have personally identifiable information, such as birth dates and dates of marriage, excluded by "xx", so as to protect their identity. An Asterisk * following the name of an individual indicates that while absolute proof of relationship has not been established, strong circumstantial evidence, birthdates, census data, naming patterns, or interaction with other known descendants, makes their kinship highly probable. Those who have data, or corrections for individuals found in this Register, are welcome to submit it to the compiler, using the contact address found on the Main Menu Page. This Register will be updated periodically, as new data becomes available. Updated material will be coded "green". A special thanks to Ross Funkhouser and Chuck Miller, descendants of Absalom Miller, for furnishing much of the data in this Registry.
